Use the Spin Dial for Proper Fit

The proper helmet fit is an important factor for safety and comfort. Here at Nutcase, we want to ensure that your child gets the best protection from injury and the maximum protection with a properly sized helmet. A snug, aligned fit will achieve a safe and secure ride.

Each Little Nutty helmet has a built-in Spin Dial Fit System to ensure a snug, comfortable fit, as well as a soft, fabric chin strap for comfort. Helmet size range fits heads 46cm - 52cm / 18" - 20.5". Below are simple steps in determining the proper helmet size. Remember to always ride safely!

Step 1: measurement

Measure the circumference of your child's head with a tape measure. Place the tape measure slightly above the ear and bring it across the mid forehead completely circling the head about 1 inch above the eyebrows. Take several measurements to make sure you have the largest size. If you do not have a tape measure, use a string and measure it against a ruler.

CORRECT

Step 2: try it on

Once you have determined your child's helmet size, have him try it on. The helmet should be worn level on the head and not slide or move freely when he rolls his head from side to side. If this is the case, you have a helmet that is too large. Extra padding may help provide a better, more snug fit or use the spin dial to tighten or loosen the fit.

INCORRECT

Step 3: proper fit

Be sure the front of the helmet lays just above the eyebrows and that the back of the helmet does not touch the nape of the neck. The chin strap should fit snug but not too tight to cause discomfort or choking. Securely fasten the chin strap and try to roll the helmet off your child's head. If the skin on the forehead moves slightly, you have a good fit.

HEAD SIZE (inches)	HEAD SIZE (centimeters)	STREET HELMET SIZE	<p>One size with Spin Dial Fit System</p>
18	46	<p>XS Extra Small 46cm - 52cm</p>	
18 1/2	47		
18 7/8	48		
19 1/4	49		
19 5/8	50		
20	51		
20 1/2	52		

This chart is to help guide you in finding the correct helmet size. Actual size may vary from person to person.
